

HERE ARE THE ANSWERS!

# Check out the cards!

1. Environmental engineers fight pollution and protect the Earth.
2. This type of engineer builds roller coasters and other machines of all sizes. Mechanical
3. These engineers bring us all of the electric things in our lives. Electrical
4. Chemical engineers develop life-saving drugs but also create makeup and sports drinks.
5. Civil engineers build highways, bridges, dams and airports.
6. This type of engineer works with computers and video games. Computer
7. Aerospace engineers build airplanes, rockets and spaceships.
8. These engineers get to explore the ocean. Ocean
9. Materials engineers create new materials, like bullet-proof vests and swim suits.
10. These engineers help farmers save water and grow more food. Agricultural
11. These engineers dig for oil, gas and coal, as well as diamonds. Mining
12. Architectural engineers help architects put together their buildings.
13. The power source nuclear engineers develop is used in submarines.
14. Biomedical engineers help find cures for diseases.
15. These engineers help manage the 87,000 planes flying over the U.S. every day. Industrial
16. These engineers help make factories operate better, often by using robots. Manufacturing
